

# Fade

## Karnivool

You said just show me what you want to be  
I will never stand in your way  
Take it back and then you say again  
Tell me what you want to be?  
I will never stand in your wayYou know I sat here thinking just the other day  
What it was you said to make me snap?  
You were always gonna be my friend  
You're not the enemy  
I will never stand in your wayYeah, but in my mind I see clearerTake me back into the other day  
When I was so proud to hear myself  
You will slap me and I know this sucks  
You're just the enemy  
I will never stand in your wayYeah, but in my mind I see clearer  
Now that I've found somewhere to rest my headIn time, I guess this will all fade  
In time, I guess this will all fadeYou said just show me what you want to be  
I will never stand in your way  
Take it back and then you say again  
Tell me what you want to be  
I will never stand in your wayYeah, but in my mind I see clearer  
Now that I've found somewhere to rest my headIn time, I guess this will all fade  
In time, I guess this will all fadeIn time, I guess this will all fade  
In time, I guess this will all fade(In time, I guess this will all fade)  
Slap me up again, just slap me up again  
Slap me up again, just slap slap me up again(In time, I guess this will all fade)  
Slap me up again, just slap me up again  
Slap me up again, just slap slap me up againIn time, I guess this will all fade  
In time, I guess this will all fade
