Beat Of The Music

Brett Eldredge

Well I just met you a couple hours ago
My last night in town, hey wouldn't you know
I get hooked on a girl with blue diamond eyes
Down here in Mexico
Oh
Now you're walking up asking me to dance
Smiling that smile and reaching out your hand
Well there's a move or two, I'd like to show you
While I still got the chanceYou got the soul and you know how to use it
Put your hand on my hip 'cause you know that I'll lose it
You got my heart racing like there's nothing to it
Falling in love to the beat of the music
Oh oh, why wouldn't I wanna stay?
Oh oh, and let that plane fly away, hey hey'Cause you got the soul and you know how to use it
Put your hand on my hip cause you know that I'll lose it
You got my heart racing like there's nothing to it
Falling in love to the beat of the music
The beat of the musicI think I could get used to that steel drum playing
Waking up on a beach if you know what I'm saying
One more night would be more than alright with me
So hold on baby 'causeYou got the soul and you know how to use it
Put your hand on my hip 'cause you know that I'll lose it
You got my heart racing like there's nothing to it
Falling in love to the beat of the music
We're falling in love to beat of the musicOoh
The beat of the music
