

College Kill Dream

Whitewoods

Earth is a school her tuition is free
The web is alive crack it open and read
Teachers might help but they mostly retard
The lie of omission keeps all the kids in the dark
College kill dream
Faculty thinks in the way they are trained
With approved information for shrinking your brains
It's high school continued with a little more sex
You can find that today with an app and a text
College Kill Dream
What you got taught was a game forsaken
If you play by the rules you might be mistaken
Major in your life you learn all you need
To build a job from scratch at your own speed
College kill dream
Grades are a relic of a time that's decaying
Get you jumping through hoops instead of complaining about
The grownups world who control all the youth
They teach their own children anything but the truth
College kill dream
