Intuition

John Lennon

Hey, hey, hey, alright
Hey, hey, hey, alrightMy intentions are good
I use my intuition, it takes me for a ride
But I never understood
Other people's superstitions
It seemed like suicideAs I play the game of life
I try to make it better each and every day
And when I struggle in the night
The magic of the music seems to light the wayIntuition takes me there
Intuition takes me everywhereWell, my instincts are fine
I had to learn to use them in order to survive
And time after time confirmed an old suspicion
It's good to be aliveAnd when I'm deep down and out
And lose communication
With nothing left to say
It's then I realize it's only a condition
Of seeing things that wayIntuition takes me there
Intuition takes me anywhere
It takes me anywhere, alrightIntuition takes me there
Intuition takes me there
Intuition takes me thereIntuition takes me there
Intuition takes me there
Intuition takes me there
