You're Beautiful

Nelson Freitas

I gotta go my love,
but I'll be back real soon
I know you'll miss me girl
I'll miss you too
Don't you worry about me no, everything will be alright
I'll be back to hold you down
We'll spend some quality time alone
While I'm gone, call me on the phone..
Think about me.. Dream about me
Me and you, you and me
I want it to be more than you can see now
We will get there some how, but let me tell you this for now

I love your eyes, your lips, your smile, your kiss, your touch, I miss when I'm not around you girl
I love your eyes, your lips, your smile, your kiss, your touch, I miss you're beautiful, beautiful..

Sitting in my hotel room
Thinking about me and you, and all the things that we could do
If you were right here with me boo
We'd be touchin , loving, kissing and huggin
You all over me, me all over you ..
Thats the way it would be ..
(Creole and English together)
I love the way that you make me feel, girl you make me feel brand new ..

I love your eyes, your lips, your smile, your kiss, your touch, I miss when I'm not around you girl
I love your eyes, your lips, your smile, your kiss, your touch, I miss you're beautiful, beautiful..

(Rapping solo)

I love your eyes, your lips, your smile, your kiss, your touch, I miss when I'm not around you girl
I love your eyes, your lips, your smile, your kiss, your touch, I miss you're beautiful, beautiful (2x)

ahhhhhhh, ahhhhhhh, ahhhhh, ahhhhhhhh, ahhhhhhh (4x)
