

# Connection

## Silversun Pickups

How in the world can i explain  
When the words leap off from the page?  
Is there a way to celebrate  
When I'm scared straight from the past parades?  
The kids are throwing all their charms at  
The ladies stuck in victory march  
With no new trails to blaze  
This is no connection  
This will leave an impression  
How in the world can I compete  
With I'm plugged into the new machines?  
Lazer focused on the screens  
I was lit up with self-esteem  
My ears will ring with monotome  
When their bodies fill with memory foam  
I can't help it, I wanna hear them scream  
This is no connection  
this will leave an impression  
Burn on in  
Burn on in  
This is not a connection  
This is not an infection  
This will leave an impression  
(This is my connection)
