Angel Of The Night

The SteelDrivers

In my mind you're by my side
See you - wherever you are
I feel you're touching my skin
The time stands still just for us
Without you there's no hope in my darknessYou give me the moment
Which is never ending
Let me feel your heart
And I'll go with you to the end of this worldMy angel of the night
I'm forever by your side fly with me to eternity
hold me in your arms and kiss me
I close my eyes and dream with you
Carry me so far away
Never let me down and kiss meAngel of the night
Unite in one soul
You lead me on the way, the way of our shadows
Show me your burning desire
I follow you
I follow you into the garden of pleasures
