Fast Forward

ReVamp

I wish that we could skip to the part when we was married up,
Skip the walks in the park I wanna carry ya
Back to our own place dont wanna waste another day
Already know what you mean to meI like the things you like
you like the things I like
so dont hesitate tonight
I like the things you like
you like the things i do
so come on and come on and lets gofast forward into the future
Cus i could spend forever with you
fast forward into our destiny
cus theres so many things we could do
if you push my buttons we can go to the next scene
if you push my buttons we can go to the next scene
if you push my buttons we can go to the next scene
if you push my buttons F.F.W.D.Sometimes it gets kinda hard to see the future
But i dont think we could fall any deeper
Im gonna tell you once Im gonna tell you twice dont let this slip away
so baby press my green button and make tomorrow todayI like the things you like
you like the things I like
so dont hesitate tonight
I like the things you like
you like the things i do
so come on and come on and lets gofast forward into the future
Cus i could spend forever with you
fast forward into our destiny
cus theres so many things we could do
if you push my buttons we can go to the next scene
if you push my buttons we can go to the next scene
if you push my buttons we can go to the next scene
if you push my buttons F.F.W.D.if you push my buttons
if you push my buttons(oh right)
if you push my buttons
if you push my buttons F.F.W.Dfast forward into the future
Cus i could spend forever with you
fast forward into our destiny
cus theres so many things we could do
if you push my buttons we can go to the next scene
if you push my buttons we can go to the next scene

if you push my buttons we can go to the next scene
if you push my buttons F.F.W.D.
