

# Moving to New York

## The Wombats

i've just had the craziest week  
like a party bag of lies  
booze and then deceit  
and i don't know why  
i wanna voice this out loud  
its theraputic somehow

so i'm moving to New York  
cause i've got problems with my sleep  
and we're not the same  
and i will wear that on my sleeve

so i'm moving to New york  
cause i've got issues with my sleep  
looks like christmas came early  
christmas came early  
for me

i put one foot forward  
and ended up thirty yards back  
and am i losing touch  
or am i just completely off the track

and i don't know why i wanna voice this out loud  
it's theraputic somehow

so i'm moving to New York  
cause i've got problems with my sleep  
and we're not the same  
and i will wear that on my sleeve

so i'm moving to New york  
cause i've got issues with my sleep  
looks like christmas came early  
christmas came early  
for me

-music-

so i'm moving to New York

cause i've got problems with my sleep  
and we're not the same  
and i will wear that on my sleeve

so i'm moving to New york  
cause i've got issues with my sleep  
looks like christmas came early  
christmas came early  
for me
