Starved

Dethklok

So let's go trippin' and pass some time
And dilate our beady eyes
And sing the songs we used to sing
Let's get drunk in the heart of winter and watch the sun come up
And then we can pass out through the day
You lost your life to the heroine girl
I watched her cry at your funeralAnd all the drugs ain't gonna make you feel alright
And all the junkies have a tendency to choke & die
And we will be never be talkin' together again
Say goodbye to you 'cos I'm never gonna see your face
Say goodbye to you 'cos I'm never gonna see your face againSo let's go trippin' and pass some time
And dilate our beady eyes
And sing the songs we used to sing
Let's get drunk in the heart of winter and watch the sun come up
And then we can pass out through the day
But when it took hold on you
The walls began to close to close on you
You died and were reborn again
But you just didn't understandDyin' , chokin' in your father's hands
Dyin, Choking.
