Starved

Dethklok

So let's go trippin' and pass some time

And dilate our beady eyes

And sing the songs we used to sing

Let's get drunk in the heart of winter and watch the sun come up

And then we can pass out through the day

You lost your life to the heroine girl

I watched her cry at your funeralAnd all the drugs ain't gonna make you feel alright

And all the junkies have a tendency to choke & die

And we will be never be talkin' together again

Say goodbye to you 'cos I'm never gonna see your face

Say goodbye to you 'cos I'm never gonna see your face

And dilate our beady eyes

And sing the songs we used to sing

Let's get drunk in the heart of winter and watch the sun come up

And then we can pass out through the day

But when it took hold on you

Let's get drunk in the heart of winter and watch the sun come up

And then we can pass out through the day

But when it took hold on you

The walls began to close to close on you

You died and were reborn again

But you just didn't understandDyin', chokin' in your father's hands

Dyin, Choking.
