Tongue Twisted

Catherine Wheel

Tongue tied twisted, steal time to stay
Real song drifted keeps the thorn inside
Tongue tied twisted, twist around and creep
Tongue tied twisted keeps the leaf

Will it fall will it drop, I despise the time
Thought I love to feel the tongue twisted
So pleased to find

Beneath the grass this time, beneath the grass
Know this fear will last, know this fear will last
Know this fear will last, I know this fear will last
I know this fear

I know this fear with last
I know this reach beneath the gutter
The restless I know, I know, I know

But I love to feel the tongue twisted
