Falling

Brooke Hogan

(Stack$)
Yo Baby, what's up?(Brooke)
I been around him and I know what he's about
Shinin' those fancy things, but its not what he's made out of...
He takes good care of me and loves me when i'm down
He's my best friend to me and damn he makes me proudStack$)
So now I'm feelin like I'm choked up...
Wrote you a text, yea we broke up
I tried to settle some things, but now that games done
I see your face red, you're gettin wasted
You play with fire, it'll get you like you're K-Fed
We on the record baby, you got a second maybe
and ya'll know who I am, sorry Chelsea Lately...
Let's teach it as a lesson, man you fall from Heaven
This redemption is the only thing my mind's stressin.(Brooke)
And I'm fallin for him, I'm fallin in love
I never thought I'd fall in love, I never thought I'd fall in...
And I'm fallin for him, I'm fallin in love
I never thought I'd fall in love, I never thought I'd fall in...When life is hard on him he wants me by his side
When I lie next to him he holds me thru the night
I'll build a life for him, I'll keep him safe and warm
When he comes home to me I'll be right at the door.(Stack$)
And now im knocking at your door miss
Open up, looking gorgeous, fly from head to toe
She smiles, a metamopheous...
Sunshine shines the clouds can run their course when we set sail everything is in orbit
Fight but never forfit, who knows you best
Lets take an overseas trip on my private jet
And like that, we reconnect, eyes to spirit
Im falling deep for your love, and I dont care who hear it(Brooke)
And I'm fallin for him, I'm fallin in love
I never thought I'd fall in love, I never thought I'd fall in
And I'm fallin for him, I'm fallin in love
I never thought I'd fall in love, I never thought I'd fall inBaby you don't know how much I need you
You know I would give up everything to be with you
Got me crazy, wanna break you off (sometimes)
And baby I love you, and I dont deserve youAnd I'm fallin for him, I'm fallin in love
I never thought I'd fall in love, I never thought I'd fall in
And I'm fallin for him, I'm fallin in love

I never thought I'd fall in love, I never thought I'd fall in(Stack$)
Who'd ever thought, that this would happen...?
