Nervebomb

Benediction

Fear
Fear is the mind killer, fear will infest
Gratify the nihilist, begin brain arrestNervebomb, emaciated nervous tract
Nervebomb, to this torture I reactPanic inside, cracking skull
Abrasive aggravate
Forcing through the mental path
Mind exacerbateMultiplying psychosis
Terrifying rateNervebomb, emaciated nervous tract
Nervebomb, to this torture I reactAlienation neuropathy
Terminal chaos killing apathy
Neurons converge all as one
Detonation of nervebombFit to burst the pressure mounts
Culmination brain
Overloading neural points
Crucifying painNervebomb, emaciated nervous tract
Nervebomb, to this torture I reactAlienation neuropathy
Terminal chaos killing apathy
Neurons converge all as one
Detonation of nervebombNeurons conveying impulses
Sensory operate
A morbid thirst they rupture forth
Violence separatesExtreme emotion, suicide
Counting down the ticking time
Repent my florid state
My mental highNerve distortion, a massive scale
Mental holocaust
Explosive thoughtless terrorist
Insanity enforcedStorm that raged the human soul
Won over flesh and bone
Trapped forever, caged within
Mental post war fall out zoneNervebomb
