Incinerator

Napalm Death

[Slaughter cover]Make way for the Incinerator...In suits they were dressed,
when the button was pressed
they fed upon semen,
the governments a demon
they left us bleeding and sore,
in the hands of the incineratorIn the bible we looked
while our cities all cooked
the mutants didn`t learn
towards Satan they turned
while the wind ripped and tore
from the wrath of the incinerator[chorus]Incinerator
wood for a feast
Incinerator
when you expect it least
Incinerator
didn`t learn from the past
Incinerator
to nuclear war we`re cast...And now the molds cast from mistakes of the past
we`re all melting in this hot cauldron of sin
and through all his blood and gore comes the incinerator[chorus][repeat first verse][chorus]
