

Disconnect and Apply

Dead Letter Circus

I don't think I can take this one more day in one day out
My tolerance has faded I am holding on here now why I can't take another day of this
I don't feel it
I object to life inferior
I can't face another day of this
I don't feel it
I reject this life inferior Feel the world inside my head
I'm fine
I can't even relate to all these dead end one way lines
Apply and disconnect here so that I can hear the sound in my (mind) I can't take another day of this
I don't feel it
I object to life inferior
I can't face another day of this
I don't feel it
I reject this life inferior Feel the world inside my head
I'm fine Let go
Always I can find a way
I can't take another day of this
I don't feel it
I object to life inferior
I can't face another day of this
I can't feel it
I reject this life inferior See you at work on monday
