Tough Love

Mr. Lucci

Chorus
Girl i know its hard to open up your heart
When people say love dont last forever
But me and you gonna _____ what we got here is strong
No matter what they say well stay together
Cuz we done been through so much we break up and make up
Its tough love see you aint gotta cry
Baby girl its alright cuz ill be by your side well ride forever

I can look in your eyes and i can feel the vibe
And i been waitin to find somebody like you, girl i can relate to
Post up and just chill and smoke blunts
Sip some grey goose while we laugh and lay loose
Hey you grateful _____ kiss your ankle
Aint no limit to what i can or cant do
I know these bitches love to hate you
But nobody here now to feed no hate food
Cant you feel the breakthrough?
Aint too many women i can even talk to past two
Everybody lookin from the outside in
But see you lookin from the inside in and i thank you
That grey dress fall off when i say plus the pannies and bra but the heels must stay
Aint no ***** you can meet in your lifetime that cut you this way
But what can i say? Im blessed
Baby i can give you the best
And at the same time relieve your pain and stress
And yes i aint gonna give you nothing less than 100% of my good sex whenever we in bed
I confess first time i met you aint felt a connection none like this
But look at us now 2 years later with 2 kids shits real and i feel it

Chorus

Babygirl its like poetry the way we go together perfect like a door and key
I see the loyalty when i drove and you roll the sweet
You know exactly what words to speak when i need help to be there only in details
To show up when im ready and you gon pay retail
Have a ***** overseas posted up on the beach for so long that you think it was seashells
We bail block to block and these haters gon hate but they cant stop what you got
Its like i feel as high as a kite i know what is right is right

And babygirl its the night of my life
And i know people might dislike me but im not the type to bite my tongue
I know exactly what i done chose
Babygirl we can roll take a lil of the dro
Hit the block and blow and ____

And im gonna swing on through and pick u up
Someone ____ thats how i picture us
And it dont matter what they cuz we know our situation
They think different they just hatin

Chorus

Babygirl look at me ill hold you down run around
See me wit nothin but pounds smokin ____
Got me trippin where i cant do bounce
Leave the house everytime i see your pretty brown complexion
Girl it gets me confessin, the way you turn me on but same time neglect me
Stress me and sex me sex me and stress me
Feeln like a eggo i think im gone till you catch me
Wake up every morning just to see you next me
Gotta be my blessing its destiny certified ecstacy
Everytime babygirl caressin me, lovin every move will u stay with me? Check this
What you think about takin a toast ___ cruise in the yukon till we cant no more
Mix the drank with the dro hit the interstate
Watch the sunrise from a whole nother coast
____ selfish its how i feel let the bullshit burn symbolism kill
The passion is real ____
Dont need no glass slipper cuz i got the real deal
Think about all the years i spent wit you aint no other woman compare to you
Thats why i cherish and anything you need babygirl i swear ill do

Chorus
