Echoes Guide Me (feat. Jeff Sontag)

SirensCeol

-Verse 1-
When summer days fell to autumn nights,
The flickering in our hearts was called to rise.
Our souls waltzed, shaded in the lights,
Forever was a blink before our eyes.But we're the gust of western wind
To rip the earth beneath our skin,
Forever fuels a lifetime of goodbye's.A pale voice wanders off a distant shore:
A single siren shining through the storm.
That I may rise to scale such treacherous heights,
Your echoes guide me in the blackest nights.Echoes guide...-Electronic Rift--Verse 2-
When summer days fell to autumn nights,
The flickering in our hearts was called to rise.
Our souls waltzed, shaded in the lights,
Forever was a blink before our eyes.That I may rise to scale such treacherous heights,
Your echoes guide me in the blackest nights.-Electronic Rift-Echoes guide...
