

God Is Love

John Reuben

Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above Thinkin' of my past motivates my future

Will I make or break love or hate

Now tell me who's the fake n' who's the snake man

Who can I trust so many promises I seen bust

Justice never accomplished right so I gotta let that go

And keep movin yeshua illuminate my path

And keep me tuned in so much negative around for me

To still get consumed in, but I still have peace

In the midst of confusion I still have peace in the midst of confusion Even though I know my life has purpose

I find myself down n' out feelin' worthless

And defenseless against them that rise against me

But I still call no man my enemy

'Cause competition is none no competitors

Matthew 5 44 has got me prayin' for predators

Turnin' cheeks on the regular so throw your dart

And chances are you'll hit the heart

But never take me apart because I'm found in yeshua

So who can be against me that's what I thought

Nobody Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin'

Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin' Toby mac and I came to drop this on you

I got a fresh point of view

John reuben let me tell you what I'm tryin' to say

The world can't take theses smiles away

Sunny days though they may be gray

And by the way some people just love to hate

But I got love for them all so much love for them all

God is love with a capital L

And it's the last thing he told us through Christ as well

You got to love God with all your heart

And love your brother like you love yourself

Love your brother like you love yourself man

And for you john that's a whole lotta love Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin'

Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin' Love huh no one's above it or below it

Love right some think they're tough 'cause they don't show it

Love huh we'll make it plain to see

That we got love even if they haven't for we

Love huh no one's above it or below it

Love right some think they're tough 'cause they don't show it

Love huh we'll make it plain to see

That we got love even if they haven't for we Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin'

Love is God and God is love no one's below no one's above

Sing it like

Love is God and God is love no one's below no one's above

Singin'
