Clouds

Travis Garland

(Verse)
Working really hard to get me
With them heels and that dress on that body
Yeah
And Imma about to drop 20 baby
Imma make you run and tell somebody
Yeah
The way my name rolls off your lips,
I think there's no better sound
Nah, nah
You're like a drug, I see them hips, you moving' can't keep me down
Nah, girl(Chorus)
You got my head in the clouds
And I just wanna fly
Awe, baby
You got my head in the clouds
And I just wanna get high
Woah, ho ho, hey(Verse)
Girl, you know you take me there
Don't nobody else compare
Got me high, I'm floating on thin air
Love the way you float my mind
Take me up straight to the sky
Want you now, stop wasting time
The way my name rolls of your lips,
I think there's no better sound
Nah, baby
You're like a drug, I see them hips, you moving can't keep me down
Whoa ho, girl(Chorus)
You got my head in the clouds
And I just wanna fly
Ho, baby, hey
You got my head in the clouds
And I just wanna get high
Whoa ho ho hey(Verse)
I wanna fly
Over the trees
Over the world
Just you and me

I wanna fly
(x2)(Chorus)
You got my head in the clouds
And I just wanna fly
Ho, baby, hey
You got my head in the clouds
And I just wanna get high
Whoa ho ho heyAll I want, is to be right there with you(Verse)
Girl you a killer
In high heels and lipstick
I got the camera baby
So let me see you pose
Aye baby girl, listen here
I'll feel you everything you wanna hear
If you want, I'll turn you out
Girl your name, I'll write it in the clouds
In the clouds
