

# My Time Has Come (Dedicated To Andretta Tillman)

## Destiny's Child

It's too far  
It's too fast  
It's too quick  
It won't last  
It's not right  
But it's not wrong  
There's no time  
Move along  
But I've come much too far  
And I know what's in my heart  
And I know what I feel  
I can tell when it is real  
My time has come It's okay  
Be afraid  
It's alright  
You just take that fear  
Turn it in  
To your strength  
It's called life  
And that's why we're here  
Now I've come much too far  
And I know what's in my heart  
And I know what I feel  
And this time I know it's real  
My time has come And like the road below me  
I know I'll touch the sky above  
A million (a million footprints around me)  
Tell me it can be done  
My time has come (Now I've come) I've come much too far  
And I know what's in my heart (I know what's in my heart yeah yeah)  
And I know what I feel  
And this time I know it's real  
My time has come It's so close  
It's been a long time coming  
It's here and now  
And I know it'll last  
It's so right  
That it can't be wrong  
Now's the time

For me to be strong Now I've come much too far  
And I know what's in my heart (I know what's in my heart yeah yeah)  
And I know what I feel  
This time I know it's real  
My time has come I know that I just gotta keep movin' on ('cause I know)  
I know what's in my heart  
My time has come I know that I just gotta keep movin' on ('cause I know)  
I know what's in my heart  
(I can feel it I can feel it) my time has come I know that I just gotta keep movin' on ('cause I know)  
I know what's in my heart  
(I can feel it I can feel it) my time has come I know that I just gotta keep movin' on (keep movin' on)  
I know what's in my heart  
I can feel it my time has come I know that I just gotta keep movin' on (keep movin' on)  
I know what's in my heart  
I can feel it my time has come (I can feel it) I know that I just gotta keep movin' on (I can feel it)  
I know what's in my heart (my time has come)  
I can feel it my time has come
