He Who Kills

Fireball Ministry

Open call to the fallen
The game's begun
Gave into the calling
For souls undone
Left out in the open
In the open
Gave up on seeing eye to eye
Four fires burning
And the black wheel keeps turning
Can't change the truth until you lieGave in to delusion
The battles won
Figured out the solution
Only just begunLeft out in the open
In the open
Gave up on seeing eye to eye
Four fires burning
And the black wheel keeps turning
Can't change the truth until you lieSend back the sickness
They all earned it
Can't fight the fallen
They all burned it
Just try forgetting
What they told you
Your life was only
What they sold youBought and sold you
