Face

The Black Ghosts

(Don't look now)
'Cause it is coming for you, it is coming for you
(Don't slow down)
It is around the corner, around the corner(Don't hold back)
You got to give what you got, you got to give what you got
(Don't slow down)
You got to face the musicFace the music, face the music
Face the music, face the music
Face the music, face the music
Face the music, face the music(No use hiding)
'Cause it will break down the door, it will come through the wall
(No good fighting)
'Cause it is stronger than violence and harder than silence(No use lying)
'Cause it will find the truth inside of you
(No good crying)
You got to face the musicFace the music, face the music
Face the music, face the music
Face the music, face the music
Face the music, face the musicFace the music, face the music
Face the music, face the music
Face the music, face the music
Face the music, face the musicYou got to face the music
Face the music, face the music
Face the music, face the music
Face the music, face the music(Don't look now)
'Cause it is coming for you, it is coming for you
(Don't slow down)
It is around the corner, around the corner(Don't hold back)
You got to give what you got, you got to give what you got
(Don't slow down)
You got to face the musicFace the music, face the music
Face the music, face the music
Face the music, face the music
Face the music, face the music
Face the music
