

# She's Gone Cuz She Left But Thats Alright

Brent Lee

Moonshiners daughter and I loved her still  
I married and now she makes me liquor  
I got drunk and now she's mad cause I'm pissed  
And I can't sober up enough to dicker

Chorus:

Now she's gone cause she left and that alright

Her friend was a farmers daughter and all the horsemen knew her  
So I took her out into the fog and mist  
But now I found her whole attitude was in the sewer  
So I had to cross her off my list

Chorus

She was a roadworkers wife, and she sure loved her asphalt  
Coulda been a realtor cause she sure knew a lot  
So I took her behind the rock pile, cause I'm a little boulder there  
But we never thought that we'd get caught

Chorus

Met a girl she was a welder, she sure had acetylene tits  
I fell in love with her first time that I solder  
She had a cat named mig and a dog named spot and she was really hot and I liked her a lot  
Till I found out she was that road workers daughter

Chorus
