

# Lavatory Love Machine

Edguy

Oh if only Brazil was not so far  
far away I Would swim or walk or ride  
But never ever fly  
But all the noise of the maniacs there  
The sweat on my face it's worth to bear  
But I don't wanna bounce and die But then I see a lady in a tight blue dress  
I close my eyes, I know what I would go for  
Stewardess before the crash Lavatory Love Machine  
No fear can quell my steam  
Lavatory Love Machine  
No cabin fire burn my dream I am at your disposal  
I gotta get up to see what you ain't gotta hide  
Wheeling junk along the aisle  
Keep your seat belt fastened  
You're whipping with an iron voice  
You command  
Uh mistress I am in your hands And when she asks me what I'd like to eat  
I realise the domina feels the same  
And I reply: What about your pie? Lavatory Love Machine...  
Lavatory Love Machine  
No broken wings to stop me stream  
Lavatory Love Machine  
Honey dou you like the way I CRY? Now if I gotta die  
I'll have been stiff and smiling till the crash  
Let them know I've been alive  
Till I made my final splash Lavatory Love Machine... Don't hear the scary noises  
From the turbine when you scream
