

I Will Not Fall for You

Taproot

Well I hear a voice of faith
Resonate a belief in choice with no way to escape
It's a play to weaken the sense of joy and bury us
Separates the good of evil
Placing shame on helpless people
stabbing hate infectious needles shallow forces spreading seeds will
Feed the flame of ignorance takes away our freedom to say I will not fall for you No
Well I see a fingers' point
But not that use ostracizing noise with a narrowed view
It's okay the rest of us heal the pain now we're free to say Separate yourself from all the hating people who want
to take you down say
I will, I will not, fall for you
