

Dope

Lady Gaga

[Verse 1]

Cork's off, it's on
The party's just begun
I promise this
Drink is my last one
I know I fucked up again
'Cause I lost my only friend
God forgive my sins
Don't leave me, I
Oh, I'll hate myself until I die[Chorus]
My heart would break without you
Might not awake without you
Been hurting low, from living high for so long
I'm sorry, and I love you
Sing with me, "Bell Bottom Blue"

I'll keep on searching for an answer 'cause I need you more than dope[Post-Chorus]

I need you more than dope
Need you more than dope
I need you more than dope
I need you more than dope[Verse 2]

Toast one last puff
And two last regrets
Three spirits and
Twelve lonely steps
Up heaven's stairway to gold
Mine myself like coal
A mountain of a soul
Each day, I cry
Oh, I feel so low from living high[Chorus]
My heart would break without you
Might not awake without you
Been hurting low, from living high for so long
I'm sorry, and I love you
Sing with me, "Bell Bottom Blue"

I'll keep on searching for an answer 'cause I need you more than dope[Post-Chorus]

I need you more than dope
I need you more than dope
I need you more than dope
I need you more than dopeI need you more

Need you more
I need you more than dope
