Future

Galactic Cowboys

the future knocked on my door and i turned it away
the future knocked on my door and i was watchin' tv
the future knocked on my door but i was afraid
the future knocked on my door and i turned it awayhope it comes back again
i'll be ready this timethe future knocked on my door and i turned it away
the future knocked on my door and i was nursing my needs
the future knocked on my door but i was delayed
the future knocked on my door and i turned it awayhope it comes back again
i'll be ready this timethe future knocked on my door and i turned it away
the future knocked on my door and i was losing my mind
the future knocked on my door but i was insane
the future knocked on my door and i turned it awayhope it comes back again
i'll be ready this time
