

Baby Why Do You Treat Me This Way

Dr. Feelgood

(johnny guitar) Since you tried to kill me I've got nothing to say
You sent some boys around to blow my kneecaps away
I know I burned your house down and I smashed up your car
I know I spent your giro in the public bar
But all that didn't happen just by accident
I tried to light my fag I thought the match was spent
I borrowed a sledge hammer just to pound out the dents
Baby why do you treat me this way? A knock came on the door while you were looking for work
The man who had the shotgun went completely berserk
I'm very glad you trained your little dog to attack
They perforated him while escaped out the back
I'm only phoning up to say I love you still
And I just can't believe that you have had your fill
You can't get rid of me because I'm too hard to kill
Baby why do you treat me this way? I'm trying to make it up to you I'm gonna' put it right
To show there's no hard feelings I'm coming back tonight
I know you really love me, I don't care what you say
And anyway I'm coming back to stay
