Here For You

Kyven

I know I was a fool to let you leave my side
And let the most important thing slip slowly by my eyes
Won't make that same mistake twice
I counted every minute since we've been apart
I want so bad to tell you girl what's in my heart
I want to touch you baby and hold you again
Ooo give me one more chance
Give me one chance to show you
Another chance to kiss and hold you
And let you know how much I care, yea
And if you need someone to love you
Girl, you know who you can run too
And you know I'll always be there
Baby I'm here for you if you change your mind
And I promise you it'll be better this time
Baby I'm here for you, won't you let me try
And I swear that I, I'll be here for you
When I wake up in the morning want you here with me
Want to wrap my arms around wanna feel you breathe with me
Just like we used to be
You never miss your water 'til your well runs dry
And I'm so thirsty
I don't think that I can make it
No no no no I'm not gonna make it
Ooo give me one more chance
Give me one chance to show you
Another chance to kiss and hold you
And let you know how much I care, yea
And if you need someone to love you
Girl, you know where you can run to

So you know I'll always be there
And baby I'm here for you if you change your mind
And I promise you it'll be better this time
Baby I'm here for you won't you let me try
And I swear that I, I'll be here for you
If you change your mind
And I promise you it'll be better this time
Baby I'm here for you won't you let me try

And I swear that I, I'll be here for you
Too many times I treated you unkind
Now I have to wonder what the hell is going through my mind
I had a good thing, I let it go
I guess I was afraid to let my true feelings show
Now things have changed because I'm not the same
I've been a different man ever since you went away
And baby if you come back I swear I'll always be true
And I just want you to know that I'm here for you
Give me one more chance to show you
Another chance to kiss and hold you
Show you how much I care
And if you need someone to love you
Girl, you know where you can run to
You know that I'll always be there
Give me one more chance to show you
Another chance to kiss and hold you
I wanna make sweet love like we used to do
And if you need someone to love you
Girl, you know where you can run to
Ohh baby, ooo
