

# Coke

## Beans On Toast

Says she's got another life  
That I am living in my friend  
Through and through she says  
It's nothing I can change  
I always was the one  
The celebration ends without a sound  
And the friends they're not around  
And you find you're all alone  
Talking to yourself again  
You promised it's the end  
Just one night you'll be fine  
Cause in the end the dreams you dream  
Are all you ever were  
Says she's got another life  
That I am living in my friend  
Through and through she says  
It's nothing I can change  
I always was the one  
And she'll say  
Come on I'd like to buy the world a coke  
And lie here naked with my girl  
Come on I'd like to buy the world a coke  
And lie here naked with my girl  
The lights dim once again someday I'll sleep  
Cause it's all the same to me  
This tiny voice inside my head keeps me awake  
Come on let's find the cure  
Come on let's die until we live  
In the end you'll find how high you climbed  
There's no design to ever bring you down  
Says she's got another life  
That I am living in my friend  
Through and through she says  
It's nothing I can change  
I always was the one  
And I'll say  
Come on I'd like to buy the world a coke  
And lie here naked with my girl  
Come on I'd like to buy the world a coke  
And lie here naked with my girl  
And she knows  
(repeat 6 more times) I gotta buy the world a coke  
I gotta buy the world a coke

And lie here naked with my girl  
And she knows  
(repeat 9 more times)
