Field Of Flowers

Sixpence None The Richer

Let me, let me know what makes you happy
And I'll do it over, over and over again
Let me know just how you love me and we'll spin
Around again in this field of flowers we're in
I wish to quote from Whitman now
To show the way I feel, I feel about you, oh, about you
Because it's a 'Subtle Electric Fire' you light in me
Every time I see you

So let's dance again in this field of flowers we're in
These lyrics are so frivolous they really have no meaning
But I wrote them for you and anywhere I would be with you
No matter where but for now we're here
So let's spin around again in this field of flowers we're in
Let's spin again in this field of flowers we're in
