

Simple Lies

Endo

Lost in glitches
Demeaning of purpose
Tied so tight
It's trying to inspireLack of faith
A greater imagination
A perfect perception
Of guilt ridden photographs of you....of youBesides, Besides
Simple lies
Are what we are
And what we have
Won't hurt anymoreSimple lies
Are what we are
And what we have
Won't hurt anymoreSilently waiting
For a moment with you
As I tie you into nothing
Understand my hate for youWhat is wrong
Oh, what is right
I push you through
I can't live with or without youBesides, Besides
Simple lies
Are what we are
And what we have
Won't hurt anymoreSimple lies
Are what we are
And what we have
Won't hurt anymoreWhen something keeps us alive
We will rest till death
I try to keep myself back
Together againBesides, Besides
Besides, BesidesSimple lies
Are what we are
And what we have
Won't hurt anymoreSimple lies
Are what we are
And what we have
Won't hurt anymoreSimple lies
Are what we are
And what we have

Won't hurt anymore
