

(Who the Hell Just) Call My Phone

Electric Six

Ooh! I need a rider, need a?
Bet your old mother knew
And girl when you hit me, girl when you hit me
You act like I don't see Oh no you don't
Don't row your boat
Don't row away, don't go
I'm about to make the roof blow when I see a number I don't know I say
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone Ooh
And I thought I knew the words
Ooh
?
Your ?
Get down to the music train I need bubbles [bubbles]
Lots and lots of bubbles
Ooh! I got ?
Get with it
On Sunday I break bread
Did you hear what I said?
I get out of bed
I rule the world with my damn head When I hit you from behind
You're going use ? mind
Man ?
I sleep like a llama
With a frog and one care in the world...one more time!
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone Who the hell, who the hell

Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
Who the hell, who the hell
Who the hell just call my phone
