

# Favorite Dog

## Seven Mary Three

That's my other hand, open and empty  
It wants one too I guess  
That's my other jaw, swollen and shameless  
It talks too much I know  
And another singer is born, every sip I take  
Drain away my words just like they were my flesh and bone  
And they're barkin' at me, yea they're workin' on me  
Just like my favorite dog Geronimo, yea look out below  
I love that rusty water like it was my favorite dog  
Geronimo, yea look out below  
I love that rusty water like it was my favorite dog That's my other head, open and bleeding  
It thinks too much I guess  
That's my other eye, swollen but fearless  
It's seen too much I know  
And another singer is killed, every sip I take  
Drain away my words just like they were my flesh and bone  
And they're barkin' at me, yea they're workin' on me  
Just like my favorite dog Don't betray, have mercy  
Please take my side  
You don't have to be like a bone today
