

# Mind Bomb

## A Global Threat

You'll listen if I shout  
Who cares what it's about?  
Another thing that I don't need  
Your bible's my record sleeve  
I'm in your ear, then out your mouth  
Mind bomb, the next is you  
Rolls off your tongue, an easy out  
Mind bomb, the next is you  
On a site to check the scene  
Is what you say still what you mean?  
Selling cream for teenage jean  
They're all still IDLE THREATS  
Cause if a brick's been thrown  
I haven't seen  
It's in your head and out your mouth  
Mind bomb, the next is you  
Rolls off your tongue, but what are you about?  
Mind bomb, the next is you.  
Flags wave above a stagnant dream  
There's ugly faces and patched fatigues  
Don't mess around, We've got it,  
nothing left to explore  
Do you feel the same thing now that you did before?  
Did it already get you?
