

Save Me Tonight

Goloka

Rap

Vocals

You know that I've been hiding from love
It's been a long long time since I loved someone
Oh baby tell me is it now that i should open my heart?
And good things come as a will of a God

Cmonn aaah a little closer
aaah a little closer
aaah a little closer

You know that I've been hiding from love
Micro - physics in the night body movement code shift the focus right
You know that I've been hiding from love
Intimate so hot so hot justify what I've got don't stop don't stop

Cmonn aaah a little closer
aaah a little closer
aaah a little closer

RAP: Check 1 2 common now hit me with me

Vocals: You know that I've been hiding from love x 4
