

My Time Has Come

Destiny's Child

It's too far, it's too fast
It's too quick and it won't last
Isn't that right but it's not wrong
There's no time, move along But I've come much too far
And I know what's in my heart
And I know what I feel
I can tell when it is real
My time has come It's okay to be afraid
It's alright you just take that fear
Turn it in to your strength
It's called life and that's why we're here Now I've come much too far
And I know what's in my heart
And I know what I feel
And this time I know it's real
My time has come And like the road below me
I know I'll touch the sky above
A million footprints around me
Tell me it can be done
My time has come Now I've come much too far
And I know what's in my heart
'Cause I know what I feel
And this time I know it's real
My time has come It's so close, it's been a long time comin'
It's here and now and I know it'll last
It's so right that it can't be wrong
Now's the time for me to be strong Now I've come much too far
And I know what's in my heart
And I know what I feel
This time I know it's real
My time has come I know that I just gotta keep movin' on
I know what's in my heart
My time has come
