

Pumpin Blood (Tony Senghore Remix)

NONONO

Hey heart on the road again
Moving on forward
Sticks and stones won't break our bones
We're in a car on the highway
It's a magical feeling that no one's got a hold
You're a catalyst to your happiness you know This is your heart it's alive
It's pumping blood
And it's your heart it's alive
It's pumping blood
And the whole wide world is whistling
And it's whistling Hey heart on the run again
Driving strong forward
Sticks and stones won't take its course
You got the part in the front seat It's the best and worst feeling like nothing can go wrong
You're the decider of the world that you will get to know Cause it's your heart it's alive
It's pumpin' blood
And it's your heart it's alive
It's pumpin' blood
And the whole wide world is whistling Hey heart on the road again
On the high way on the highway
Hey heart on the road again
on the highway on the highway Cause it's your heart it's alive
It's pumpin' blood
Yeah it's your heart it's alive it's pumpin blood
And the whole wide world is whistling And it's whistling
And it's whistling
