

# Domino

## The Karma Killers

Domino I'm up against the wall  
I can't hear you at all  
Where are you  
I have myself to blame The fire  
Spark in your eyes  
I needed a pick me up  
Was feeling down I always felt ashamed  
Guilty over blamed  
I never meant to hurt you babe  
I tried to find a different way  
But I'm not ready yet  
What lies ahead? I pulled the trigger and it threw me right back  
And now I'm feeling like a non-believer  
Bullet through my heart  
Dancing in the dark  
Ohhh I fell like a domino  
I walked the mile had to crawl my way back  
I shaved my head and follow the leader  
I gave it a try  
Left me hypnotized  
Ohhh I fell like a domino Her pretty little face  
Driving me insane  
I lost all sense of reality  
Shock my system, rattle my bones  
Let me go and I'll leave you alone  
We played it like a game  
A musical refrain I never meant to hurt you babe  
I tried to find a different way  
But I'm not ready yet  
What lies ahead? I pulled the trigger and it threw me right back  
And now I'm feeling like a non-believer  
Bullet through my heart  
Dancing in the dark  
Ohhh I fell like a domino  
I walked a mile had to crawl my way back  
I shaved my head and follow the leader  
I gave it a try  
Left me hypnotized  
Ohhh I fell like a domino I feel the poison kicking in

You're just a bad habit that I could never quit  
I gave you my all but  
Never good enough What ever happened to falling in love?  
I turn my head to the non-believers  
Just a little time, just a little time  
Ohhh I pulled the trigger and it threw me right back  
And now I'm feeling like a non-believer  
Bullet through my heart  
Dancing in the dark  
Ohhh I fell like a domino  
I walked a mile had to crawl my way back  
I shaved my head and follow the leader  
I gave it a try  
Left me hypnotized  
Ohhh I fell like a domino
