Too Cold for You

Sahara Hotnights

You're so much bigger than me
Though your head is full of thoughts as big as mine
I'm so much smaller than you
And if you've been cruel you left your footprints all over meNot that I would've let that happen
But once you've really got me under your skin
Only for a short time I wanted outAnd I felt so good while making you sad
'Cause you look so good when you are sad
And we always knew that I was too cold for youYou're so much stronger than me
You should know how to sink a ship like me
I am much more weaker than you
Still I think I can hurt one or twoAfter someone told me selfish is my first name
I played tricks on him
Just because I want to whenever I want toAnd I felt so good while making you sad
'Cause you look so good when you are sad
And we always knew that I was too cold for youToo cold for you
I am too cold for youAnd I felt so good while making you sad
'Cause you look so good when you are sad
And we always knew that I was too cold for you
