

# A Sudden Death

## The Organ

Day after day , they go  
They go to gain just a  
Little more control  
And when they took yours away  
I couldn't sleep at all  
I lay in bed for daysI died a sudden death  
I made an awful mess  
I didn't stand a chance  
I didn't stand a chance  
'Cause when we where our bestI could care less if people  
Bred themselves to death  
Oh, but now that you are gone  
I just know that everything is wrong  
Don't leave me alone now
