Pickup Line

Robbie Boothe

I got a pickup line you might wana hear,
Baby slide on over let me whisper in your ear.
You've probably herd it a thousand times,
but your at a thousand with me.
lets get out of here and i'll show you a different side of me.

Get in my truck put your feet on the dash,
With your jean shorts on legs smooth as glass.
I Got a pickup line in a pickup truck,
got the windows down and the radio up.
And now i'm Crusinn so fast,i'll rock you right down till I run out of gas,
and when the lights go down i'll take you to that spot,
if your doing what your doing making my jaw drop.

Never have I ever met a girl like you before,
you got the smile of a goddess,
hotter then the month of august just so much i cant ignore.
You've probably herd it a million times,
but that don't matter to me.
lets gets tangled up in this truck
where have you been lately.

Get in my truck put your feet on the dash,
With your jean shorts on, legs smooth as glass.
I Got a pickup line in a pickup truck,
got the windows down and the radio up.
And now i'm Crusinn so fast,i'll rock you right down till I run out of gas,
and when the lights go down i'll take you to that spot.
if your doing what your doing making my jaw drop.

From a pickup line, to a pick up truck.
Damn girl, i just cant get enough.

Get in my truck put your feet on the dash,
With your jean shorts on, legs smooth as glass.
From a pickup line to the pickup truck,
got the windows down and the radio up.
And now i'm Crusinn so fast,i'll rock you right down till I run out of gas,
and when the lights go down i'll take you to that spot.

if your doing what your doing making my jaw drop.
