

Mechanical Soul Cybernetics

Scar Symmetry

Sentient robotic generation
Perfected age, improved mankind
Cold inanimate halos embrace each specimen
Fabricated race, these new forms evolve outside the frames
Manufacture will beyond all programmes
Artificial soul emanation engagedSoul-infused simulations
Divine-synapse and sacred circuitry
Soul-infused cybernetics
Inside synthetic lifeless formsSentient synthetic revelation
To imitate the cosmic mind
And eliminate failures to gain pure perfection
Simulated worlds, mankind proves to be inside a shell
Our creations show we are as they are
Simulations of intelligence beyondSoul-infused simulations
Divine-synapse and sacred circuitry
Soul-infused cybernetics
Inside synthetic lifeless formsWhat are worlds aside from light gone astrayWho made present this simulation
Who made us think and form creationsSentient robotic generation
Perfected age, improved mankind
Cold inanimate halos embrace each specimenSoul-infused simulations
Divine synapse and sacred circuitry
Soul-infused cybernetics
Inside synthetic lifeless forms
Inside apparent soulless forms
