

# Drowning

## Cybele

No, no, no, no, no

Uh, wait

[Verse 1]

You, gotta excuse me

You see I went looking for yesterday

That's where I think all the good memories of you and  
me, went, yeah

So I'm swimming in a sea of forgetfulness

Just to get a glimpse of the you I remember, damn

(Damn)

[Pre-Chorus]

I miss you cause the one I'm lookin' at right now

She, looks just like sounds just like feels just like

you

But I'm so confused cause she don't seem like you

So when I get there

[Chorus]

I'll be drowning , drowning

I'll be drowning

In our memories

When I get there

I'll be drowning

I'll be drowning

I'll be drowning

In our memories

I rather be there than here

[Verse 2]

I, don't, want a life saver (No)

But let's just gonna save this love?

If it's not that leave me right here

Let me breathe in the moments I won't let go, of

I wish you'd get back to that girl

The one that I remember as my lover, damn (Damn)

[Pre-Chorus]

I miss her cause the one I'm lookin' at right now

She, looks just like sounds just like feels just like

you

But Iâ€™m so confused cause she donâ€™t seem like you

So when I get there

[Chorus]

Iâ€™ll be drowning, drowning

Iâ€™ll be drowning

In our memories

When I get there

Iâ€™ll be drowning

Iâ€™ll be drowning

Iâ€™ll be drowning

In our memories

I rather be there than here

Than here

Than here
