

# Crystal Village

Pete Yorn

Take my hand  
Come with me  
Into this crystal scenery  
And wait, til I retain the ticket  
You would never have the time  
I would love to change your mind  
You were there  
And it was good in the beginning Over here, see the lights  
Arranging twilight sages  
Commence to reveal it to the others  
You would never have the time  
I would love to change your mind  
You were there  
And it was good in the beginning  
You were there  
We were good in the beginning Yeah, take my hand and come with me  
Into this crystal village  
And see the lights so fried in brightness  
Cos you will never have the time  
I would love to change your mind  
You were there  
And it was good in the beginning Take my hand, come with me  
I see the lights so brightly  
And we fall as if we never really mattered  
Cos you will never have the time  
I would love to change your mind  
It was there  
And it was good in the beginning  
We were there  
It was good in the beginning.
