Ask Me No Questions

Albert King

You go out when you get ready
You come home when you please
You don't ever want to love me
Think it outta be all right with meListen, when I try to talk to you, baby
And let you know just how I feel
All you tell me if I don't like it
There's someone else out there willOh, I done got wise to you, woman
You're not the only bird that flies in the sky
Or if you don't ask me no questions, darling
You know I, I won't tell you no lieBecause I like love your arms to be 'round me
And your lip to be close to mine
Oh, I want to love you, woman
Be with you all the timeI'm comin'
Yeah, come on, I got her strength
Come on, call me
Yeah, going on down to [Incomprehensible]Ooh, I done got wise to you, woman
You're not the only bird that flies in the sky
Or you don't ask me no question, darlin'
You know I, I won't tell you no liesBecause I like love for your arms to be 'round me
And your lip to be close to mine
Hey, I want to love you, woman
And be with you all the timeYou know what I said
Ooh, haa
Come on now
