

11th Street Kids

Hanoi Rocks

Accidents happens about everyday but
That day special followed by a heat wave
Rush hour just began, I ran for my life, I can't afford
To miss the bus or I'll go and miss all the fuss'Cos this time it's a must
I'm gonna meet the boys and Suzy
I just can't miss her tonight
Tonight I'm so hot, gee, I'm so hotWell, is she tight?
Is she in need of a lover like me?
Oh, there she is now
I gotta go and give her a great big kissAnd now that I'm in her I don't wanna lose her
These moments are takin' me to heaven
But they don't seem to take her anywhere at all
I wonder what is wrong, please, tell me what is wrongRemember all them nights, we wrote on the walls
That 'Punks never die', hot love in the nights
The days we spent undergroundAccidents happens about everyday
But that day special 'cos Peter was taken away
And Suzy, she moved to another townSo here I'm all alone in the summer heat
Looking at this empty street, all here's left
Is writings on the walls, I wonder were all the
11th street kidzz are today, where have they all gone?
