

# We Drink on the Job

[Earlimart](#)

Right before you go to bed  
I'll still be buzzed around, just like you said  
And we'll get down to the end  
We drink on the job Our heads are set up and too tired as hell  
But well, we still got a few stories to tell  
And we'll get down to the end  
We drink on the job And we'll get down to the end  
We drink on the job  
And we'll get down to the end  
We drink on the job
