

Boys Don't Cry

Natalia Kills

I'll be yours tonight
But don't hold me too tight
When we say good bye
Remember boys don't cry I wanna love you in the worst way baby
You gotta kiss me just to taste a little danger
Can you take it
I might break it
get you int eh bedroom on your bad behaviour Oh take it or leave it
Oh you're the one that needs it
Oh wanna feel that rush
But it hurts too much when your heart gets crushed
Hey! I'll be yours tonight
But don't hold me too tight
When we say good bye
Remember boys don't cry I'll be yours tonight
But don't hold me too tight
When we say good bye
Remember boys don't cry I wanna kiss you where it hurts pretty baby
Wanna to-touch I'm gonna bring you to your knees yeah
I'm gonna tease ya
Right though your jean yeah
But when it's over better catch amnesia Oh be my dirt little secret
Oh and I'm tearing off your t-shirt
Oh wanna feel that rush
But it hurts too much when your heart gets crushed
Hey! I'll be yours tonight
But don't hold me too tight
When we say good bye
Remember boys don't cry I'll be yours tonight
But don't hold me too tight
When we say good bye
Remember boys don't cry I'll be yours tonight (Did I say too much?)
But don't hold me too tight (What is "too much?")
When we say good bye (Don't fucking tell me when I've had too much)
Remember boys don't cry I'll be yours tonight (I just want more Jonny, Please?)
But don't hold me too tight (Who me? Never officer)
When we say good bye (I'm over the limit?)
Remember boys don't cry (What is the limit really?) Oh remember boys don't cry
Oh remember boys don't cry
